

# Product of the Month

*“This Product Wipes Out Everything but Sin”!*

--An avid X-O customer

Have you ever gotten up and started your day with the thought, “Gee, I sure hope I don’t encounter something that smells bad today”? If you are like most people, the answer is: probably not. Most of us don’t give stinky smells any thought until confronted with them. At that point, we want to eliminate the offensive smell as quickly as we can.

Undesirable smells are a part of our lives-even if we wish otherwise. Almost all deodorizers or odor eliminators are masking agents that impart a fragrance to “mask” the offending odor- usually only for a short time. Other products deaden your sense of smell instead of getting rid of the odor.

We’ve discovered two products, X-0 Odor Neutralizer & X-0 Plus+ Odor Neutralizer & Cleaner that actually eliminate odors from any source within seconds. X-0 products do not mask odors- X-0 & X-0 Plus+ completely cancel odors leaving an odor neutral environment. X-0 & X-0 Plus+ are made from natural, botanical ingredients so safe, that both can be used *directly on people, animals and throughout their environments.*

X-0 products are biodegradable & are non aerosol. Both X-0’s do not produce allergic reactions- individuals sensitive to chemicals have recognized the X-0 difference for years. Neither X-0 nor X-0 Plus+ contain oxidizers, ozonators, or enzymes- ingredients associated with environmental and health risks.

X-0 products work effectively in virtually *unlimited* applications and odiferous settings, eliminating the need to purchase multiple other products. And X-0 products are economical-they work the first time. There’s no need to switch between products, using X-0 Plus+ Odor Neutralizer & Cleaner makes cleaning far simpler.

Unsolicited testimonials are commonplace. Often heard: “This stuff really works!” Too bad that when consumers find a product that works, they are surprised. X-0 customers say:

“We clean VFW & American Legion halls. Imagine the smell with all the smoking & drinking. We won’t use anything but X-0. Clean up goes faster, fresh smell remains.”

Texas *Home Gardener*

“In addition to cats and dogs, we have birds, ferrets, hamsters, pot-belly pigs, lizards, turtles, and snakes. We use X-0 Odor Neutralizer in animal cages, on the animals, (Skunked Dogs) throughout the house. Our house smells like a home, not the zoo.”

“I have worked in home health care. We used X-0 Odor Neutralizer- there was no odor in the home.”

A pest control company reports “After removing dead animals, and nests, we apply X-0 to cancel lingering decay smells. Amazing stuff.”

A breeder of show dogs uses X-0 Plus+ Odor Neutralizer & Cleaner to cancel the smell of dogs in heat. A cattery in the Southeast reports the same benefit with cats. “I didn’t expect X-0 to work- it did.”

X-0 does any surface where it is safe to use water. X-0 is used in airlines, eliminates odors in an egg drying facility, as a paint additive making freshly painted rooms ready to use, in colleges, recreation facilities, car detailers and dealers, waste water treatment operations, medical, veterinary and other professional settings. X-0 products have an indefinite shelf life and are not affected by hot weather.

Curious about how X-0 was invented and how it works? A landscape gardener sought to solve the problem of extensive indoor odors. Trial & error research were rewarded with the botanical formula that is X-0. Odor canceling molecules bind with odor causing molecules in a process that cancels odors of every kind.

To find out more about X-0 products & where to buy, contact X-0 Corporation at 1-800-442-9696 or via e-mail, [slayne@xocorp.com](mailto:slayne@xocorp.com).

*Texas Home Gardener does not test any products featured in Product of the Month. We simply wish to bring to the attention of consumers products which may be helpful to organic gardening, agriculture, or natural living ventures. Product information is provided by the featured company.*
